

# LINEWATCH

guidance for safe working near  
high pressure pipelines

**DO YOU** do landscaping  
works including ground works  
and tree planting and hard  
landscaping such as driveways,  
walls, patios and general  
building works

Awareness and preparation is the key to  
safe excavation and building

Every year **damage to pipelines** is either sustained or narrowly avoided by works carried out by landowners or their contractors.

Whatever the reason, damaging a pipeline could not only be costly but could also cause **serious injury**.

Please contact the pipeline operator to ensure that your works are safe.

Operator contact details can be found on marker posts, where present. Types of works of interest include, but are not limited to:

**Landscaping, road/pathway works, gates, fencing, drainage, or installation of private services/signs within 50m of the pipeline.**

The pipeline operator will be happy to discuss the works with you.

**Don't take a risk! - make a phone call or enquire FREE via [www.LSBUD.co.uk](http://www.LSBUD.co.uk) which will give you the operator contact details**

If you do not know who to contact visit the Linewatch website at **[www.linewatch.co.uk](http://www.linewatch.co.uk)** and we will arrange for the correct operator to contact you

or contact **[www.LSBUD.co.uk](http://www.LSBUD.co.uk)**
